Alternate Technology Access Plan

In registering for a Distance Education course (Cable or Web) the student is responsible for finding immediate alternate Access to a computer with Internet connectivity or cable television should that student experience technical difficulties. Technical difficulties can include but are not limited to problems with a student’s computer hardware/software; inoperability of a student’s VCR or DVR; or lack of service by a student’s Internet Service Provider (ISP) or Cable Provider. Technical issues do not constitute the extension of an assignment, project, quiz or exam deadline unless agreed upon by the instructor.

An Alternate Technology Access Plan will be made by the student prior to the start of the semester and should be implemented immediately upon encountering technical difficulties. The student is required to continue course work as a result of having an alternate plan of access while independently resolving any technical issues with hardware/software, VCR/DVD, ISP, or Cable Provider.

Course information and availability may have changed since the publication of this listing. You must check online thru MyUHportal.Hawaii.edu for current status.

Latest updates: <http://myuh.hawaii.edu/uhdad/avail.classes?l=LEE>

Students who do not meet prerequisites for the course will not be able to register for that class.
